

Physical Development

Please remember to wear PE kit on Monday & Thursday.

Both classes have outdoor P.E on a **Tuesday**. Please make sure your child comes to school in P.E. kit.

English

We will be learning to write an explanation text about the human digestive system. This is a non-fiction text which will include many grammar features and sentence structures that we have already learnt. We will be trying to include fronted adverbials, prepositional phrases, relative clauses and lots of technical vocabulary like "oesophagus" and "intestines"!

Homework & learning together at home

Children will be set homework on a **Friday** and this should be returned by the following **Wednesday**. This will be online or written depending on the topic. Please get your child to read for ten minutes every day, they need to get their reading record signed when they have done this.

PSHE

In PSHE we will be looking at being safe, including how to look after ourselves and others. We will also be looking at protective behaviours and online friendships.

Year 4 – Summer Term 2

Class 4HD and 4BM

Our topic: Food and Digestion

Science

We will be learning to...

Explain the process of food digestion in humans. We will be learning the names and function of each of the organs involved in the digestive system. We will also be learning about the function of the different teeth and looking in depth at the importance of oral hygiene!

Computing

- We will be continuing to practice our basic computing skills such as typing, saving and opening documents and using the internet to research.
- We will be extending our knowledge of Microsoft PowerPoint and experimenting with different features of the program to achieve different effects.
- We will also be learning how to behave as part of an online community.

Geography

We will be learning how certain foods are grown in different parts of the world and then transported via established trade links to our supermarkets in the UK.

LYFTA

Lyfta is a new online virtual platform that we will be using to 'visit' different communities from around the globe. Looking at the different foods, religions, cultures and practices within these communities.

Maths

- We will be recapping various mental and written strategies for the four operations (addition, subtraction, multiplication, and division).
- We will then move on to learning how to solve missing number problems and word problems efficiently.
- Finally, we will be revisiting fractions. We will recap recognising fractions, finding equivalent fractions, finding fractions of amounts and adding and subtracting fractions.
